==========

COMPANY PROFILE: GOKUL TEXPRINTS PVT. LTD.

==========

1. CORPORATE OVERVIEW

Gokul Texprints Private Limited (commercially recognized as Gokul Print) is a premier fully integrated vertical B2B textile manufacturing giant headquartered in Surat, Gujarat. Established in 1993, the company has grown from a local printing house into a national leader in premium ethnic fabrics, digital printing, and designer women's wear.

2. COMPANY SPECIFICATIONS

* Legal Entity Name: Gokul Texprints Private Limited
* Corporate Identification Number (CIN): U17110GJ1993PTC019460
* Year of Incorporation: 1993
* Headquarters: B 74-77, Central Park, Near Old Bombay Dyeing, GIDC Pandesara, Surat, Gujarat, India
* Retail/Wholesale Hub: Millennium Textile Market, Ring Road, Surat, Gujarat
* Key Leadership: Mr. Subhash Dhawan (CEO), Mr. Subhash Singh (Managing Director)

3. MISSION AND VISION

* Mission: To lead the textile printing industry by seamlessly blending high-definition digital and rotary screen technology with 100% natural, sustainable fabrics, while powering our plants through clean, renewable energy.
* Vision: To extend our dominance from the domestic Indian B2B wholesale sector into global fashion hubs across Europe, the USA, and the Middle East as a zero-defect manufacturing partner.

4. INFRASTRUCTURE & CAPACITY

Operating out of the industrial zone of Pandesara, Surat, our processing mill features:

* Fiber Dyeing & Yarn Spinning Units: In-house generation of customized yarn weights.
* Advanced Weaving Sheds: High-speed rapier and water-jet looms processing premium greige fabric.
* High-Capacity Printing Mill: Incorporating Swiss-engineered rotary screen printers, traditional hand-block lines, and state-of-the-art high-speed digital inkjet machinery.
* Value-Addition & Embroidery Blocks: Multi-head automated machines handling Zardosi, sequin integration, and heavy Schiffli thread work on premium velvets and silks.

5. CORE VALUE PROPOSITION

Unlike typical fabric processing houses, Gokul Texprints offers an all-inclusive pipeline. We control the supply chain from raw fiber dyeing to finished stitched garments. This ensures impeccable color fastness, batch-to-batch consistency, and highly competitive bulk pricing.
